Education

College for Research and Technology

Bachelor of Science in Information Technology

June 2023

Technical Skills

- | | | | |
|--------------|-------------|---------------|----------------------|
| • JavaScript | • React JS | • Node JS | • Express JS |
| • MongoDB | • Git | • Basic MySQL | • Basic PHP/ Laravel |
| • CSS | • Chakra UI | • Bootstrap | • Figma |

Experience

Web Development Intern | LexMeet, Inc.

February 2023 -June 2023

- Made contributions to the building of the front-end, leveraging ReactJS and Laravel API connections.
- Demonstrated proficiency in version control with Git, effectively contributing to the team's collaborative coding workflow.
- Collaborated with the team using Figma to create user-friendly web designs.

Projects

Web-based Ambulance Monitoring and Requesting System | [Live URL](#)

Our capstone project that aims to digitalize the requesting of system and as well as to monitor ambulances with the use of Geolocation API.

- Leveraged the MERN stack along with a well-organized MVC architecture
- Crafted an interface using the Chakra-UI Framework
- Implemented real-time monitoring of ambulance using Geolocation API and websockets
- Prioritized authentication and authorization mechanisms powered by jsonwebtoken

Inventory Management System | [Live URL](#)

A sales inventory management system that allows business to keep track of their inventory, sales and generate reports.

- Implemented a sales inventory management system using Node.js, Express, EJS, Bootstrap, and Passport.js
- Developed a user-friendly interface for managing inventory, adding and removing products, tracking sales, and generating reports
- Implemented security features to protect sensitive data and prevent unauthorized access

Shrinky | [Live URL](#)

A URL shortener that allows users to shorten long URLs and share links.

- Developed a URL shortener using the MERN stack (MongoDB, Express, React, Node.js)
- Implemented JSON Web Token (JWT) for user authentication and authorization
- Utilized Chakra UI for the design and layout of the application, implementing a responsive, user-friendly interface
