Education

College for Research and Technology

Bachelor of Science in Information Technology   July 2023

College for Research and Technology

Associate in Computer Technology   July 2021

Certifications

Computer Systems Servicing NC II   May 2021

Technical Skills

• JavaScript	• React JS	• Node JS	• Express JS
• MongoDB	• Git	• HTML5	• Figma
• CSS3	• Chakra UI	• Bootstrap	• Tailwind CSS

Experiences

Inventory Management System| Live URL

Allows business to keep track of their inventory, sales and generate reports.

- Implemented a sales inventory management system using Node.js, Express, EJS, Bootstrap, and Passport.js
- Implemented an MVC architecture for the system, ensuring clean and maintainable code.
- Implemented security features to protect sensitive data and prevent unauthorized access
- Developed a user-friendly interface for managing inventory, adding and removing products, tracking sales, and generating reports

URL Shortener| Live URL

Allows users to shorten long URLs and share links.

- Developed a URL shortener using the MERN stack (MongoDB, Express, React, Node.js)
- Implemented data validation and error handling to ensure accurate and efficient URL shortening and redirects
- Implemented JSON Web Token (JWT) for user authentication and authorization.
- Utilized Chakra UI for the design and layout of the application, implementing a responsive, user-friendly interface

Quiz App| Live URL

Allows users to take quizzes on various topics to test their knowledge.

- Developed a quiz APP using React, Trivia API and CSS
- Utilized Axios to handle API calls and fetch the questions from Trivia API
- Developed a user-friendly interface to display the questions and answers
- Created a responsive layout for optimal user experience across different devices
